

Goal:

Spend 20-30 minutes each day reviewing and building your math skills!

<u>IXL</u>	Choose any skills related to what we have learned or work on the diagnostic assessment!
<u>Performance Matters</u>	You will see some review practice sets posted if you log into performance matters--slope!
<u>Khan Academy</u>	Choose any skills related to this year--great resource for explaining and giving examples!
<u>Scholastic Math Modules</u>	Consider any of the topics from this year--try out Functions, Slope, & Y-Intercept
<u>Google Classroom</u>	I will post a few things on there, that will be available in paper if needed as well!
<u>Math Aids</u>	Links to lots of practice worksheets!
<u>SOL Pass</u>	Practice questions *SOLS not up to date

SKILLS

* Negative Exponents, * Square Roots * Order of Operations *
* Expressions * Two-Step Equations * Slope/Y-Intercept *
* Two-Step Inequalities * Proportions * Probability * Graphing/Histograms *

Most importantly--remember I love you, take care of yourself, wash your hands, stay home, be a good citizen, and check in with me!

Other ideas while at home:

* Read a good book * Watch a documentary * Safely design an experiment * Post on [Flipgrid](#) *
* Find a new music artist * Play outside * Create an art piece * Learn a new language *
