Good afternoon FCPS family,

We know you are feeling a variety of emotions and have many questions about our buildings being closed for the remainder of the year. We have been working with the Virginia Department Of Education (VDOE) and our instructional leaders to create an equitable plan to continue learning for our students.

### **Report Cards**

- Report cards for the third nine weeks will be mailed on April 9.
- Families can expect a final report card and student progress report as scheduled to be mailed on May 29.

### **Learning Resources**

- Learning resources for the next three weeks will also be included in the report card mailing on April 9.
  - These activities will be designed for review and practice of skills previously taught. Our younger students may receive printed materials while our older students may receive resource pages with online supplements.
- To assist with our goal of continuous learning, we will be distributing Chromebooks to our students in grades three through seven. Although we are not embarking on a virtual learning journey, they can be an invaluable resource for students to review material and connect with their school families. More details about this distribution process will be shared in the coming days.
- We will be working closely with the VDOE and our instructional leaders to develop a strong remediation plan for the 2020-2021 school year.

### **Student Connection**

- Our teachers will continue to reach out and check-in with students for the remainder of the school year.
- The relationships and support students receive at school are not easily replaced during this time.
- It is important that we continue the connections between school and home through our last day of scheduled schooling on May 29.

As we progress to the end of our school year, we will be in touch on picking up any student belongings.

We will continue to share information and updates as we work through this process together. You can find updates and parent resources on our division website:
